**Attachments:** ATT00001.txt

Ken and Nancy,

GCS has submitted the Project Narrative including associated documents and the Well Injection Plugging Plan earlier this evening to both the GSDT and Ken's One Drive for the CBI version of such filings. We think this entails submission of all the Project Modules except the Financial Assurance and Pre-Operational Testing. As such we think all technical data has now been submitted to Region VI for the Class VI filing by GCS.

We look forward to meeting with you and your team on Wednesday to discuss the filings made to date as well as EPA's questions on the filing. Have a great weekend. All the best.

**BENJAMIN HEARD**  
Principal
